A Week At Camp

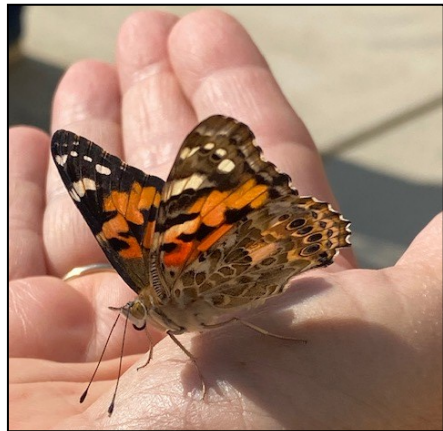

Residents enjoyed a week at camp without leaving McDowell Place! Camp Causewefeelsyoung provided a fun week of camp activities lead by our Camp Director, Gina Scott and our Camp Counselor, Jennifer Phillips. Our Science for Seniors class had a visit from a bearded dragon and learned all about this very unique lizard owned by Brooke Wilson. Residents got a cool tasty summertime treat at The Local in Harrodsburg. They also had a great time painting gourds, playing corn hole, playing nature team Jeopardy, and camping bingo. It was residents versus staff during the campfire games. Marshmallows were roasted and s'mores made for a yummy afternoon treat on the patio. Fun camp songs were sung at the campfire sing-a-long that was lead by Jan Edmiston. There was live music on the patio provided by the 'Ol Elkhorn Pickers. The week came to a close with homemade ice cream served on the patio. What a fun week!

Science for Seniors Butterfly Project

We have been learning about the metamorphosis of butterflies in our Science for Seniors class. We even got to see the process first hand! We watched as 5 painted lady caterpillars went through the all the stages of metamorphosis. It was very exciting when our caterpillars changed into painted lady butterflies especially when we released them and watched them fly away.

A Visit with Spud the Dragon!

Spud the bearded dragon paid the residents a visit during our Science for Seniors class. Brooke Wilson, Spud's owner taught the group all about bearded dragons. In the wild, these lizards are only found in Australia's desert regions. All who attended were happy to pet and hold Spud. Thank you Brooke for bringing Spud in for a visit!
